## **Letter of recommendation**

We hereby inform that the company Refretec sp z o.o. has been working since 2013 with our company Ferbeck & Fumitherm. As part of this cooperation we systematically carry out works such as bricklaying, casting and gunning.

We confirm by this letter that the refractory works at CNIM chez Fenix at 9001 route de Romont in 88700 Rambervillers was carried out from 12/10/2020 till 11/12/2020 for an amount of 89 300 euros.

The job consisted on :

The assembly of the various refractory linings in accordance according to the plans,

- ☐ The realization of formwork,
- ☐ The unloading of site equipment,
- ☐ Management and handling of materials from the place of storage to the place of installation,
- ☐ Welding of anchors,
- ☐ Installation and site withdrawal as well as daily cleaning,
- ☐ Monitoring and compliance with the schedule,
- ☐ The payment of any degradation or waste,
- ☐ Any rework due to assembly faults,

The works were carried out in accordance with the order within the agreed period. The quality of work was assessed in accordance with the art and the organization of work was without reservations.

At the same time, I confirm that the principles of health and safety and environmental protection were respected during the construction.

The previous experience in cooperation with Refratec shows that it is a professional and trustworthy company, whose services can be recommended to other entrepreneurs.

Philippe Pataud

Managing Director
